Christophe-Marie Duquesne

Data Scientist

Software Engineer who specialized in Operations Research, then Data Science. In love with data driven decision making. French, living in Munich.

Corporate Experience

Since 2013

Data Scientist for Amadeus | Travel Intelligence (Munich, Germany).

Hadoop-based Mining on Travel Industry Data (Petabyte scale). Wrote web services (Flask, Sqlite), shipped as Debian packages, continuously integrated with Jenkins. Participated in various devops tasks: log collection, user authentication, transfer between data centers (IBM WebSphere MQ, Apache Kafka, Logstash, Cloudera, Kerberos).

2009-2013

PhD in Operations Research with Amadeus (Sophia Antipolis, France).

Researched how to best assign aircraft on an airline network. Authored a C++ solver and a Python suite of 20+ command line tools (Cplex, Gurobi). Benchmark performed against real life data (mined with Hadoop). Worked as a teaching assistant at the university, improving my communication and public speaking skills.

2008 (3 months) *Internship at Rio Tinto Alcan* (Clermont Ferrand, France).

Authored a C++ library for optimizing the revenue of a metal factory (Cplex). The software was based on a Linear Programming model and consistently outperformed the existing in-house tool.

Open Source Contributions

Python

Author of yaposib, a Python-C++ binding to coin-Osi. Awarded full membership in the coin-or foundation in return. Contributor to pulp-or, a Linear Programming library. Author of flasfka, an http bridge for posting/getting messages to Apache Kafka. Author of persistentdicts, a library exposing various databases with Python dict-like interfaces.

C

Author of lazylpsolverlibs, a set of proxy libraries targeting cplex, gurobi and xpress.

Java

Author of talkmyphone, an android application allowing phone control via gtalk (10.000+ downloads, forked 50 times on googlecode). It was then successfully handed over to other developers.

Lua

Author of lighttpd-external-auth, a lighttpd magnet script allowing access control via mechanisms such as OpenId.

Go

Author of **github.com/chmduquesne/rollinghash/adler32**, a rolling version of the adler32 hash. Contributor to **jackpal/gateway**, a library for discovering the address of a LAN gateway used in **Tapei-Torrent**.

Misc

Experience with **Arch Linux**, Ada, Bash, Makefile, m4, autotools, cmake... See my **github** account and my **blog**.

Education

2009-2013

PhD in Mathematics and Computer Science at **G-SCOP Laboratory** (Grenoble, France).

Integration of Fleet Deployment and of Passenger Service in Airline Schedule Management. Done at Amadeus, in the Operation Research team led by Semi Gabteni. Advisors: Denis Naddef, Olivier Briant.

2005-2009

MS in Computer Science in ENSIMAG (Grenoble, France).

Top French school of Applied Mathematics and Computer Science with highly selective recruitment.

Activities and interests

Hobbies

I like travelling. I backpacked in 14 countries in Eastern Europe and South East Asia.

Sports

Running, Cycling, Hiking. I also played rugby union for 7 years.

Activities

I was the president of the **Grand Cercle**, one of the largest French campus student associations (5.000 members) during university.
